

Project Design Phase-I
Proposed Solution Template

Date	23 September 2022
Team ID	PNT2022TMID42265
Project Name	Early Detection of Chronic Kidney Disease
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	User needs a way to do take necessary test to find CKD so that user can find CKD immediately
2.	Idea / Solution description	https://www.kidney.org/phi/form?version=health
3.	Novelty / Uniqueness	Approximately within stipulated time (15 mins) user can detect Chronic Kidney Disease
4.	Social Impact / Customer Satisfaction	The main aim of this application is early prediction and proper treatments can possibly stop or slow the progression of this disease to end stage.
5.	Business Model (Revenue Model)	Can generate revenue through direct customers. Can collaborate with health care sector and generate revenue from their customers.
6.	Scalability of the Solution	You wouldn't try to roll out to all different dialysis clinics across [the province]—it would be a continuing process, definitely will provide 99% of result accurately
